

Dear Friend,

The holidays are a time to count your blessings. One of the things I'm grateful for is to live in such a caring community.

Thanks to the incredible support of community members and past patients, last year's **Angels of Care Campaign** was Campbellford Memorial Hospital Foundation's most successful ever, helping to purchase some of the everyday essentials it takes to run our community hospital...

...Essentials like a defibrillator, upgraded IT systems, an infant transport stretcher for Emergency, and new equipment for the Laboratory.

Not everyone realizes that government funding only goes so far and all new equipment at CMH is 100% funded by our generous family of supporters.

Today **I'd like to invite you to be an Angel of Care.** Adding CMH to your Christmas list is a wonderful way to show you value having quality health care close to home for you and your loved ones.

Right now, you have a special opportunity to have your holiday contribution do twice the good. That's because a special group of leadership donors, the CMH Foundation **Matchmakers**, have offered to match every gift received dollar for dollar up to \$400,000.

A \$45 donation becomes \$90. \$75 becomes \$150. Any amount you give will be automatically matched to release double the support for your hospital!

CMH has a long list of high priority equipment needs, all of which have a direct impact on patient care. Everything from Vital Signs Monitors (\$15,000 each) to new beds (\$20,000 each) are needed right now. But **the top priority is the purchase of a new CT Scanner (\$1.3 Million).**

When our current CT was installed in January 2010, we were the smallest hospital in Ontario to have this life-saving diagnostic tool. Since then, CTs have become a standard of care almost everywhere.

CT scans help our medical team make accurate diagnoses for cancers, heart disease, blood clots, tumors, joint and bone problems and so much more.

Over 5,000 patients per year need a CT scan here at CMH but our current machine has become unreliable and desperately needs to be replaced.

Already, full days of scanning have been lost due to equipment repairs. To avert further breakdowns and ensure there are no delays in the diagnosis and treatment of patients, we need a new CT Scanner now.

Just think of how much technology has changed in the 13 years since our CT was installed — that was back when the very first iPad came out! Imagine how much clearer the images would be now.

By donating to the **Angels of Care Campaign** you can help CMH purchase a state-of-the-art CT Scanner with improved imaging capabilities. This will lead to earlier detection of life-threatening conditions and faster, more effective treatment.

Will you be an angel and help CMH purchase a new CT Scanner?

All **Angels of Care** contributions will give your family, friends and neighbours the most important gift of all – local health care they can count on. **Your gift can even be made in honour of, or in memory of, someone special and acknowledged on our new **Angels of Care Remembrance Tree** at the hospital.**

On behalf of everyone here at CMH, I wish you a very Merry Christmas and all the best for a happy and healthy 2024.

With gratitude,

Colleen Smith

P.S. I'm enclosing a special angel ornament. **Please send your signed angel, along with your Christmas gift, as soon as you can.** Your angel will be displayed proudly at CMH to brighten the lives of our patients, visitors and health care team. In Memoriam messages will be placed on the **Angels of Care Remembrance Tree.**

P.P.S. **Donate today and your gift will do double the good!** All contributions received by December 31 will be matched dollar for dollar by the **Matchmakers!**
