## Our Current High Priority

### A Message from Colleen Smith, Manager of Diagnostic Imaging:

As the Manager of the Diagnostic Imaging Department, I know first-hand how important the X-Ray machine is for diagnosing injury/illness. This machine averages 12,000 exams per year, making it the busiest diagnostic tool in the Hospital. Our current aging X-ray Machine is a Computed Radiography (CR) unit that was deemed "end of life" in December 2019, which means there is a higher risk of breakdown and replacement parts will be harder to find and more expensive.

Please support the **Tim Hortons Smile Cookie Campaign** and help us to raise part of the final \$125,000 we need to complete the purchase of the new X-Ray machine, expected to arrive in late November. Your generous donations ensure CMH continues to provide **Quality Health Care Close to Home**.

Smile everyone – there are cookies to eat!
